

LABTECH INSTRUMENTS INC.

Canadian Standard Freeness Tester (CSFT)

Model 700-1

The C.S.F.T. is designed to give a measure of the rate at which a diluted suspension of pulp may be dewatered. The freeness of pulp is a useful index of the work done on the fibre during beating or refining.

ABOUT LABTECH

Labtech Instruments inc. is a manufacturer of instruments used in the evaluation of Pulp and Paper properties in order to assess product characteristics and final quality.
