

UPGRADE YOUR GRADEX®

Rotex has redesigned the auto discharge on our Gradex® Chip Classifier machines, creating a more ergonomic design that will simplify machine operation and maintenance.

NEW Redesigned Collections Box

Benefits:

- Simplistic design for improved reliability to minimize downtime
- Ease for maintenance
- Lighter weight collection box for easier removal of discharged material
- Ergonomic design featuring rounded edges/safety improvements

Features:

- Scissor lift utilizes single cylinder to minimize binding
- Minimal disassembly required. Two bolt removal design to access scissor lift
- Features hem design on the collection box to provide easy handling
- Maintenance handle on scale base for access to cylinder
